

## Talking and Messaging

To video chat with someone, click on video call if you have a webcam and want to video chat. Your contact will choose to either video chat with you, voice chat, or decline

your call.

If you don't have time to talk, you can easily send a text message (or sms). Just look at the text box on the bottom of the picture. That's where you will type your message and send it. Unlike email, where it might take hours to get a reply, if your contact is online, you will most likely get a response in seconds.
